

22/25/30/35BH-9

Electric Counterbalance Trucks

MOVING YOU FURTHER

HYUNDAI HEAVY INDUSTRIES

 **HYUNDAI**

Your satisfaction is **our priority!**

Hyundai introduces a new line of 9-series battery forklift trucks.
The newly designed 4 wheel counterbalance trucks provide every operator
comfortable driving, increased productivity and easy maintenance.

Compact forklift with proven AC technology

Maximum performance

Spacious operator's cab

Fingertip controlled mini levers available (optional)

Weight indicator (optional)

Safety system that prevents over loading (optional)

Battery side loading system available

Curve control system

22/25/30/35BH-9

High Efficiency & Optimal Performance

More efficient operating control levers

Electronic directional control and secondary horn are mounted to the hydraulic lift lever for quick and precise maneuvering.

Finger tip control levers (Optional)

Fingertip control levers allow more precise control and fatigue-free working. The ergonomically designed armrest can be adjusted up, down, forward and backward for various operator's body type.

Advanced drive and lift performance with proven durability and low maintenance

The enclosed drive and pump motor with AC technology combine power, high maintenance intervals and excellent durability. The brushless AC motors offer improved efficiency and reduce maintenance cost.

Efficient, smooth running and powerful performance make your work more productive.

22/25/30/35BH-9

Curve control

Curve Control limits travel speed based on turning radius, reducing speed for a smooth, precise turning operation for the driver.

Driving Speed

Limit the speed

Dual drive system

Using a dual drive system will minimise aisle width and energy consumption. Plus, the drive units and AC motors intergrated in the front axle provide the operator with extremely improved gradient capacity.

Auto fork leveling system

In order to improve productivity the auto fork leveling system will automatically stop the tilt movement when the mast is in a straight position.

Max. Gradeability (loaded)

Model	%
22BH-9	28
25BH-9	26
30BH-9	22
35BH-9	19

Max. Travel Speed (unloaded)

Model	Km / h
22BH-9	19
25BH-9	19
30BH-9	19
35BH-9	19

Anti roll back system, travel speed and gradeability

Anti Roll-back system offers protection against the machine rolling back on a ramp in combination with exceptional ramp start capabilities.

Advanced **Safety**

Excellent visibility for safe operation

Optimized lift cylinder arrangement provides operator with wider visibility. The panoramic mirror expands the driver's view when backing up.

Panoramic mirror

The panoramic mirror expands the driver's view when backing up.

Strong overhead guard

Exceeding CEE and ANSI regulations, the overhead guard offers great protection combined with excellent all-round visibility.

The safely designed driver's space makes your operating more comfortable.

22/25/30/35BH-9

Fork safety features

When the forks are being lowered, a down-control valve maintains the controlled speed. The down-safety valve prevents forks from dropping down in case of sudden damage of hydraulic line.

OPSS (Operator Presence Sensing System)

When the operator is not in the seat all mast and drive movements are impossible.

Safety lamps & rear reflectors

Halogen headlights and rear LED combination lights offer the driver visibility in all circumstances. Rear reflectors mounted on the counterweight enhance safety for the driver and the application.

Optimised Ergonomics & **Fast and Easy Maintenance**

Spacious operator cabin

The newly designed cabin was conceived for more space, a wider field of view and operator comfort.

Optimized pedal position and floor mat

The position of accelerator and throttle have been optimized through human engineering.

Large entrance step

Wide and non-slip step offers convenience and safety when entering and exiting truck.

Adjustable steering wheel

To achieve a comfortable drive position, the angle of the steering column can easily be adjusted through a lever on the right-hand side of the steering column.

Grammer seat

An easily adjustable suspension seat, based on a human engineering design, provides greater comfort reducing operator fatigue.

An ideal arrangement of components ensures easy access and convenience for maintenance.

22/25/30/35BH-9

Easy battery replacement

The battery compartment is equipped with a side battery removal assembly for easy removal and replacement.

Advanced LCD Monitor

This tool is available in 12 different languages. The LCD monitor with 3.5 inch graphic smart display allows the operator to easily and efficiently control the machine.

The monitor provides information about speed & accelerator level, steer angle & travel direction, battery discharge indicator, hour meter & working mode. The optional load indicator displays the load weight in the monitor. The operator can select various performance modes to meet all working conditions.

H (High) mode

N (Normal) mode

E (Economic) mode

Turtle mode (maintain 7 km/h travel speed when lifting)

Brake oil reservoir with level sensor

The enhanced brake oil reservoir, located in the upper left dash, is equipped with an electronic level sensor and easily visible through the monitor.

New 9 Series

Optional Items

- **Fork (mm)**
22/25BH-9: 900, 1000, 1050, 1200 (Standard), 1350, 1500, 1650, 1800
30/35BH-9: 900, 1050, 1150, 1200 (Standard), 1650, 1800, 1970, 2120, 2300, 2400
- **Integral side shift**
- **Tire:** Solid (Standard) / Pneumatic / Non-marking
Wide tire [22/25/30BH-9: Front tire (23x10-12)]
- **Seat:** Grammer (standard), KAB optional
- **Finger Tip Control**

- **Cold storage** (for -30° cold working environments)
- **Basic cold storage**
- **M.C.V:** 2-Spool, 3-Spool, 4-Spool (Standard)
- **Auto Fork Leveling**
- **Beacon Lamp**
- **Load Indicator**
- **Work Lamp**
- **Cabin**
